Department of Genetics,
School of Medicine,
Stanford University,
PALO ALTO, CALIFORNIA, U.S.A.

Dear Josh,

You may remember I consulted you last year about my sabbatical leave in 1963. I followed up a number of your suggestions, and have finally arranged to go to Caltech. So we'll practically be neighbours!

As you mentioned, the Hall Institute would be an obvious place to visit, but one feels a very strong attraction overseas whenever the opportunity arises. However, I was in Melbourne at Christmas time, and spent several very interesting and profitable days with Gus Nossal, whom I had not met previously.

With best regards to Esther and yourself,

Sincerely,

Bill.

W.J. HALLIDAY
Senior Lecturer in Microbiology
